Criminal Investigations Utilizing Cellular Technologies

August 22nd - 26th, 2011

WILDHORSEPASS

HOTEL & CASINO

5040 Wild Horse Pass Boulevard Chandler, Az

**\$59.00 Rooms
Call to Reserve
800.946.4452**

Every investigator and analyst will benefit from this course. Not only will this course help solve cases, locate victims and apprehend fugitives, techniques learned have huge cost saving benefits for any department.

Topics covered include -

- How to obtain call detail records
- What call detail records are available
- Interpreting call detail records
- Working with cell towers (Geolocating)
- Historical tracking
- Live tracking
- Coverage mapping
- Legal considerations
- Court Presentations
- Specific cell provider information
- Court Orders and Warrants
- Undercover operations
- Cellular victimology
- Smartphone features
- New technologies
- GPS features
- Surveillance techniques
- Case studies

This is the most comprehensive, hands on, training in this field currently available. Investigators will leave this class with the immediate ability to apply skills learned to current and future cases. In past courses, students were able to immediately apply the skills learned resulting in solving cold cases, tracking and apprehending fugitives, and enhancing their department's surveillance techniques.

This course requires students to actively work an ongoing investigation throughout the course, culminating in a court presentation. Students will be required to bring a laptop.

**\$450.00, includes handbook, course loaded USB, court order
and warrant resource, and plotting template**

**Register on-line at www.PhxTrainingCouncil.com
- Limited Seating Available -**
